

It troubles me that the NAB is attempting to use legislation to protect their business interests rather than compete in the free market against satellite radio programming.

As a salesman, I spend the majority of my time traveling across the state where, in many instances, radio reception is non-existent.

XM provides excellent service.

I am looking forward to XM providing the Atlanta area with local news and traffic.

Respectfully urge the FCC to reject the NAB's petition 04-160.

Thanks.

John Faress
